Addendum to Informed Consent: Use of AI Documentation and Transcription Tools

- Connect Therapies & Sally Blevins MA LPC LCPC LMHC may use AI-assisted tools to support administrative documentation and progress note creation.
- AI is used solely for administrative and supplementary support. It does not provide therapy, clinical analysis, or independent treatment recommendations.
- **I will not be using AI for recording sessions**. I am obligated to let you know that If sessions are recorded or transcribed by the AI tool, you will be notified in advance.
- **Your therapist reviews, edits, and approves all AI-generated drafts before they are added to your clinical record.**
- Data privacy/ confidentiality measures are maintained, AI platforms process data under specific vendor terms. AI tools do not replace the confidential relationship between you and your licensed therapist.
- You have the right to decline or revoke consent for AI recording or transcription at any time without adverse consequences to your treatment. Again, I do not use AI recording and AI transcription which I review, edit and approve will only be used with your permission.
